

Successful Futures for Youth

Our Program provides comprehensive case management and vocational services for pregnant and parenting teens between the ages of 16-21 who are out of school. The program focuses on breaking down the many barriers young mothers face in attaining educational and vocational goals and in finding and retaining employment. Case managers serve as supportive adults and assure that participant's basic needs are met. The vocational counselor works with participant to establish career goals and prepare for employment through job readiness trainings. Participants are also placed in both subsidized and unsubsidized employment

Target Population:

- Out of school & pregnant/parenting

Hours of Operation:

9:00am - 5:00pm
daily
