

Learn 2 Earn 2!

Workforce readiness focus with academic, social and interpersonal supports fostering increased employment success. Program and service components include screening and intake, assessment of skills and needs, academic support, particularly academic tracking and drop out prevention, instruction leading to secondary school competition, mentoring and case management, asset and leadership development, skill-based career assessment and curriculum, and subsidized and unsubsidized work experiences, including internships and job shadowing. A highlight of the program is the presence of adult mentors and staff who will support the youth as they seek to become high quality, effective employees, making a difference in our local community.

- An emphasis will be placed on the development of an Individual Service Plan, such as a life map, that will be helpful in establishing career benchmarks and educational goals for all participants. Participants will have other Center for Youth services available, especially the Transitional Living Program for those who are living independently, as well as the provision of computer based instruction, counseling and case management, and leadership opportunities.

Target Population:

- 80 out of school youth
- Ages 16—21 years old who may be runaway or homeless or without traditional family resources and supports who are working towards independence, self sufficiency and stable living.
- All youth will express a willingness and an interest in seeking educational and employment opportunities, through training, internships, paid and unpaid positions as well as counseling and case management.

Hours of Operation:

9 AM to 5 PM,
or by appointment until 9
PM and as arranged with
case managers
and other Center staff, pri-
marily at the Monroe Ave-
nue location.
