

Assembly technician

Dau Thermal Solutions North America is a world class, full service, thermal management company servicing customers on three continents. We specialize in the design and manufacturing of quality, cost effective, high performance heatsinks for medium through high power heat sink applications.

We are currently hiring an Assembly Technician with a manufacturing background. We offer medical, dental, life / disability insurance, 401k, training opportunities and paid time off. Help us in growing our world class team!

Position Summary:

Responsible for precision assembly, intricate hand and machine assembly of thermal heat sinks. Fitting and/or adjustment of interrelated parts and/or assembly, adjustment and repair of subassemblies and major assemblies using various equipment and methods.

Duties and Responsibilities:

1. May involve mechanical operations.
2. Requires use of wide range of hand and power tools, electrical or mechanical fixtures and gauges, standard measuring devices such as micrometers, drills, jigs, fixtures, and light materials.
3. Responsible for inspection and testing of own work and work of others.
4. Job complexity ranges from simple, highly repetitive tasks to fairly repetitive but difficult tasks as incumbent's experience increases.
5. Other duties as assigned.
6. Ability to read and comprehend complex and detailed work instructions
7. Interpret basic blueprints
8. Familiar with various trade tools
9. Strong attention to detail
10. Work independently with minimal supervision
11. Familiar with basic computer operations
12. Organizational skills
13. Able to stand for long period of time
14. Multi-tasking- good communication skills

Additional Responsibilities:

1. Special projects as assigned to meet company needs.

Qualification Requirements:

To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill and/or ability required.

1. Excellent written and verbal communication skills.
2. Ability to utilize common software. Ability to learn new software as required.
3. Work requires willingness to work a flexible schedule.
4. High School Diploma or equivalent preferred

Physical Demands:

The physical demands described here are representative of those that must be met by an employee to successfully perform the essential functions of this job.

While performing the duties of this job, the employee is regularly required to sit and stand. The employee must have excellent hand/eye coordination, and able to handle small pieces. The employee is frequently required to use their hands. The employee must also occasionally lift and/or move up to 40 pounds. Specific vision abilities include close vision and color vision.

Work Environment:

The work environment characteristics described here are representative of those an employee encounters while performing the essential functions of this job.

1. Working conditions are normal for a manufacturing (or office) environment.
2. Work may require occasional weekend and/or evening work.
