

Expect Excellence - Quality, Selection, Service and Price

ASSEMBLER

JK Findings is a major manufacturer and wholesaler of quality precious metal jewelry components selling to manufacturers and wholesalers worldwide. Our reputation for excellence has been built on over four decades of providing a high quality product to the jewelry industry. We have been in business since 1975 and we are currently doing business in over 45 countries worldwide.

Because of our commitment to excellence, we strive to hire talented individuals who are career minded and customer focused. We are currently seeking an Assembler to join our team.

In this position you will learn to manipulate parts by twisting or otherwise fastening together various materials to mass-produce jewelry products. You will learn to work with industry tools, perform quality checks throughout the assembly process and much more. As your skills improve so will your opportunity to learn more advanced tasks.

The required skills for this position are

- Basic math skills
- High level of accuracy
- High attention to detail
- Excellent attendance and work ethic
- Ability to independently communicate with supervisor.
