

## Heat Treat Machine Operator / Forklift Operator

Our Client has several entry level openings in their long-established organization serving the global aerospace, automotive, and commercial transportation markets. These positions will be working in their ring mill and press manufacturing operations. Training will begin on day shift, but will move to shifts that could be 10 hour or 12 hour shifts. (5:00 pm to 5:00 am or 3:00 pm to 3:00 am).

### Duties:

- Ability to be forklift certified by company and OSHA standards to operate a forklift.
- Must be able to demonstrate appropriate hand/eye coordination to accurately visually align parts in ring mills, and measure forgings.
- May be required to wear a respirator.
- Learn specific knowledge of general heat treat requirements for titanium, nickel based alloys, and stainless steels.
- Demonstrate appropriate hand/eye coordination to accurately load and unload parts in furnaces.
- Conduct daily inspections of cell related equipment (forklifts, etc.) verify inspections are properly performed and documented.
- Must perform rudimentary, in process inspection of forging at interim levels of the manufacturing process.
- Must assure that daily inspections of cell related equipment (forklifts, etc.) are properly performed and documented.
- Must assure that all levels of communication with the Maintenance Department and Operations Supervisor occurs for any situations that arise
- Must assure that all 5S standards for the cell are maintained
- Must be able to demonstrate the ability to read and interpret, in English, process sheets, shop orders and instructions.
- Certified Forklift Operation preferred
- Previous Machine Operator or Heat Treating role preferred
- Able to work in extreme hot environments
- Shift Flexibility for 12 hour schedule
