

WELDING PROCESS ENGINEER

Martec Industries is a precision sheet metal fabrication company and division of PEKO Precision Products, Inc, a world class contract manufacturer. We are a vertically integrated organization providing a full-range of manufacturing and innovative technology solutions. We offer a suite of services encompassing all phases of product manufacture. Our CNC Machine and Sheet Metal fabrication services provide the ability to manufacture the precision metal parts necessary in today's highly complex and evolving technologies.

We are currently hiring a Welding Process Engineer responsible for the development and optimization of welding procedures. An ideal candidate for this position will have prior experience in welding sheet metal and in-depth knowledge of weld related processes and welding theory. A welding assessment is required for consideration as a viable candidate. This is a hands-on position- 70% welding; 30% quoting.

We offer medical, dental, life / disability insurance, profit sharing, training opportunities and paid time off. Help us celebrate 50 years of success!

RESPONSIBILITIES:

- Welding job set up and troubleshooting
- Collaborate with manufacturing engineers to complete cost estimation for quoting process
- Propose and implement newly developed welding processes and optimization strategies
- Investigate, analyze and provide solutions to problems

EXPERIENCE/SKILLS:

- 5+ years welding experience-MIG and TIG
- Knowledge of welding processes and procedures
- Good organizational, communication and excellent problem-solving skills
- Understanding of welding symbols
- Estimating experience preferable
- Familiarity with the AWS standards
- Able to read shop drawings and blue prints

For immediate consideration please respond to this posting with your resume and salary requirements.
