

The job of the **Bakeshop Sanitation Team Member** is to provide incredible service to employees and be a champion of good sanitation practices in all areas of the Bakeshop by cleaning and sanitizing the environment in which we produce high quality bakery items for our stores to provide our customers.

Note to Applicant:

This position requires working at elevated heights. Must be 18 year of age or older.

How do I make a difference?

- Cleaning and sanitizing walls, shelving racks, overhead shelves, conveyor belts and all other equipment and machinery in production rooms
- Cleaning and sanitizing conveyor belts and other machinery and equipment after production and/ or packaging of items to prevent cross-contamination of allergens
- Ensuring floors in all production rooms are cleaned by sweeping, mopping and using floor scrubbing equipment
- Removing all remnants of products and/ or various ingredients in machines and surrounding areas using the appropriate instruments and techniques
- Thoroughly cleaning and sanitizing production equipment after the days production including disassembling and reassembling equipment to ensure highest cleanliness
- Working around production taking place, emptying garbage as needed and performing all necessary cleaning and sanitation between production lines
- Using motorized equipment such as a pallet jack, forklift, or scissors lift with appropriate training

What skills, learnings, and experiences are required?

- Ability to disassemble and reassemble production equipment
- Self-motivated and able to work with little direction and oversight

What skills, learnings, and experiences are preferred and will set me apart?

- Experience using a variety of hand tools
- Previous experience working in a manufacturing facility, preferably within the food manufacturing industry

Work environment:

Will be required to spend the majority of time on his or her feet as work typically includes prolonged standing and walking in a fast-paced environment. Typical motions include repetitive hand and arm movements, reaching, lifting, pushing, pulling, bending, crouching and kneeling. Responsible for moving and lifting an average of 10-20 pounds with a maximum weight lifted of greater than 50 pounds. May be exposed to various allergens. Work takes place indoors near hot equipment and requires the safe and proper handling of cleaning equipment and supplies, including chemicals and hand tool

Other:

- Employment at Wegmans may be contingent upon your completion and our evaluation of a drug screen physical and/or criminal background check
